Single Door

Single Door With Top Light

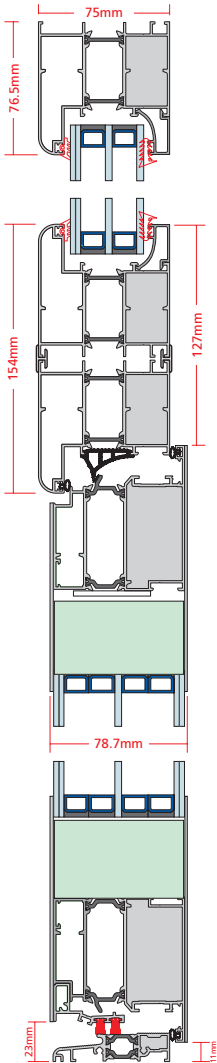

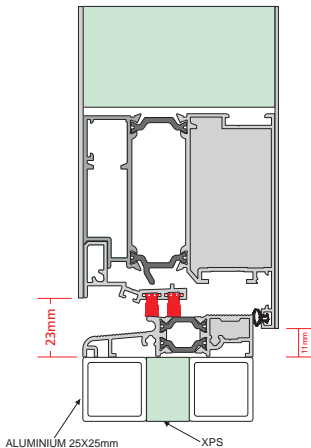

All doors with top lights will be supplied as separate frames.

Threshold With Frame Extension

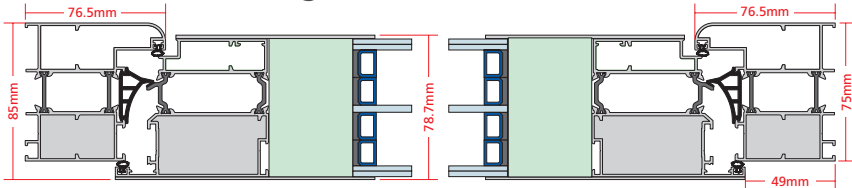

As standard all doors are complete with a low threshold.

The low threshold is available with a frame extension to provide a greater clearance, between the finished floor level and the underside of the door wing.

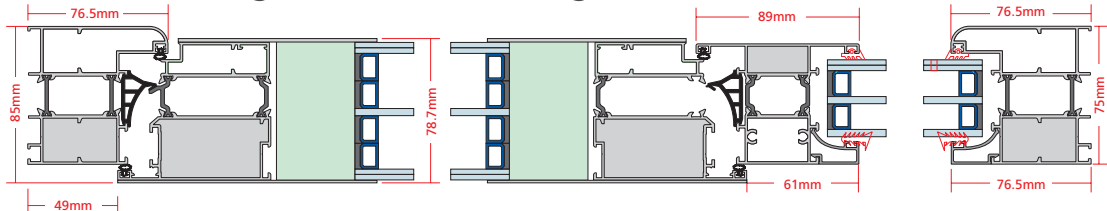

Also with the use of a frame extension an extruded door sill can be incorporated.

Single Door Outer Frame

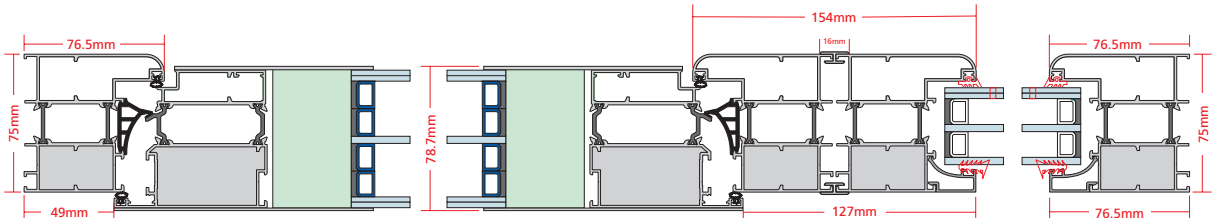

Single Door With Side Light As One Frame

Single Door With Side Light As Separate Frames

Dependent on the overall size of the door and side light(s) required, the door and side light(s) will be supplied as separate frames.
